Supplemental information (see note 10)

The accompanying notes form an integral part of these financial statements

1. NATURE OF OPERATIONS AND CONTINUANCE OF OPERATIONS

Metals Creek Resources Corp. (the "Company") was incorporated on June 21, 2004 under the Business Corporations Act (Ontario).

The Company is an exploration stage company, and is in the process of exploring its resource properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

The accompanying financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern. The appropriateness of using the going concern basis is dependent upon, among other things, future profitable operations, and the ability of the Company to raise additional capital. Specifically, the recovery of the Company's investment in exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to develop its properties and establish future profitable production from the properties, or from the proceeds of their disposition. The Company has working capital in the amount of $1,683,762 (December 31, 2013 - $1,847,717) and has a deficit in the amount of $7,720,484 (December 31, 2013 - $7,402,796). The Company has not earned any significant revenues to date and is considered to be in the exploration stage.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption deemed to be inappropriate. These adjustments could be material.

2. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB ("International Accounting Standards Board") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34 - Interim Financial Reporting. The accounting policies followed in these condensed interim financial statements are the same as those applied in the Company's audited annual financial statements for the year ended December 31, 2013.

The policies applied in these financial statements are based on IFRS issued and outstanding as of May 22, 2014, the date the Board of Directors approved the statements. Any subsequent changes to IFRS after this date could result in changes to the financial statements for the period ended March 31, 2014.

The condensed interim financial statements do not contain all disclosures required under IFRS and should be read in conjunction with Company's audited annual financial statements and the notes thereto for the year ended December 31, 2013.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include exploration and evaluation assets, share-based payments, allocation of financing proceeds, and income taxes. Differences may be material.

3. SHORT TERM INVESTMENTS:

(i) During 2010, the Company entered into an option agreement with Spruce Ridge Resources Ltd. (TSX-V:SHL) ("Spruce Ridge") pursuant to which Spruce Ridge could earn a 100% interest on eight claims comprising the Company's Sops Arm property in Newfoundland by making a share payment to the Company of 125,000 shares on signing and an additional 125,000 shares of Spruce Ridge and by spending $25,000 in exploration over a two year period (all shares and commitments have been satisfied). The Company would retain a 2% NSR on the property as well as a 100% interest in the base metal potential on the Sops Arm property. The Spruce Ridge shares are valued at the March 31, 2014 closing price of $0.02 per common share (December 31, 2013 - $0.02). The shares of U.S. Gold & Silver Inc. (TSX:USA) were received from Spruce Ridge originally as shares of RX Gold & Silver (which later merged with U.S. Gold & Silver Inc.) as a dividend-in-kind based on the Company's pro-rata ownership of Spruce Ridge and are valued at the March 31, 2013 closing price of $0.48 per common share (December 31, 2014 - $0.37).

(ii) During the 2011 fiscal year, the Company sold its interest in 10 mining claim blocks totaling 132 claim units in the Lucas, Duff, and Tully townships to Noble Mineral Exploration Inc. ("Noble") (TSX-V:NOB) (formerly Ring of Fire Resources Inc.). Under the agreement, Noble has agreed to pay the Company a total of 750,000 shares, 375,000 issuable on signing and 375,000 issuable on or before June 1, 2012 and $50,000 in cash, $25,000 payable on signing and $25,000 on or before June 1, 2012 (all shares and cash have been paid). In addition, the Company will retain a 2% Net Smelter Return Royalty ("NSR") or a 10% Net Profits Interest ("NPI") at the Company's election with Noble having the right to buy back 1% of the NSR or 5% of the NPI at a price of $1 million. The shares of Noble are traded on the TSX-V exchange under the symbol "NOB" and are valued at the March 31, 2014 closing price of $0.02 per common share (December 31, 2013 - $0.035).

(iii) The shares of Sokoman Iron Corp. (formerly Golden Dory Resources Corp.) are valued at the March 31, 2014 closing price of $0.03 (December 31, 2013 - $0.04). See note 6(f) for further details on the nature of the agreement that resulted in the receipt of the shares by the Company. During 2013, Golden Dory completed a share consolidation on a 1 for 10 basis as well as a name change to Sokoman Iron Corp. ("Sokoman") which trades under the symbol "SIC" on the TSX Venture Exchange. As a result of the consolidation, the Company holds 1,900,000 shares of Sokoman.

(iv) During 2013 the Company announced that it has entered into an Option/Joint Venture agreement with GTA Resources ("GTA") (TSX-V:GTA) in which GTA can earn a 51% to 70% interest in the Company's Squid East property in the Matson Creek area of Yukon. To earn an initial 51% interest, GTA must make cash payments of $60,000 over three years ($20,000 due upon regulatory approval (received)), issue a total of 2,000,000 GTA shares over three years (200,000 due upon regulatory approval (received)) and incur work expenditures of $2,000,000 over three years ($500,000 firm including a minimum 400 meters of drilling by 1st anniversary). The Company will be the operator during the earn-in period. Once a 51% interest is earned by GTA, either a 51/49 joint venture will be formed, or GTA may elect to earn an additional 19% interest to bring its total property interest to 70%. The terms to increase its interest from 51% to 70% include payments of $210,000 and 400,000 GTA shares within 120 days of the 3rd anniversary date and incurring an additional $1,000,000 in exploration expenditures by the 5th anniversary. GTA would assume operatorship once it had earned a 51% interest. The shares are valued at the March 31, 2014 closing price of $0.10 per common share (December 31, 2013 - $0.15). During the period ended March 31, 2014, GTA terminated the option agreement and the property is retained 100% by the Company.

(v) During the year ended December 31, 2013, the Company entered into an agreement with Gold Royalties Corporation ("Gold Royalties") in which Gold Royalties acquired a 1.0% royalty interest in the Iron Horse Project. The purchase price of $1,000,000 was payable through the issuance of 1,333,333 common shares of Gold Royalties (the "Gold Royalties Shares") at a deemed price of $0.75 per Gold Royalties Share (the "Share Consideration"). The Company has agreed to a contractual escrow period whereby the Share Consideration will be subject to escrow with a 25% release every six (6) months from the date of closing of the Transaction. The common shares of Gold Royalties trade on the TSX Venture Exchange under the symbol "GRO" and are valued at the March 31, 2014 closing price of $0.37 per common share (December 31, 2014 - $0.40). During the period ended March 31, 2014, the Company sold 333,333 common shares of Gold Royalties for gross proceeds of approximately $130,000.

(vi) During the year ended December 31, 2013, the Company executed an agreement with Xmet Inc. (“Xmet”) pursuant to which Xmet has the option to purchase a 100% interest in 24 claim units staked by the Company. Under the agreement, Xmet will pay the Company $10,000 ($5,000 on regulatory approval (received) and $5,000 ninety days after regulatory approval (pending)) and issue 2 million common shares of Xmet (300,000 upon regulatory approval (received) and 1,700,000 within four months after regulatory approval, provided Xmet decides to continue with the option following an EM airborne survey (pending)). The shares are valued at the March 31, 2014 closing price of $0.14 per common share (December 31, 2013 - $0.13). The common shares of Xmet trade on the TSX Venture Exchange under the symbol “XME”.

6. EXPLORATION AND EVALUATION ASSETS

Mineral property acquisition, exploration and development expenditures are deferred until the properties are placed into production, sold, impaired or abandoned. These deferred costs will be amortized over the estimated useful life of the properties following commencement of production, or written-down if the properties are allowed to lapse, are impaired, or are abandoned. The deferred costs associated with each property for the period ended March 31, 2014 and year ended December 31, 2013 is summarized in the tables below:

a. Dog Paw Gold Property

In 2007, the Company acquired an option on the Dog Paw Gold project which is located approximately 40 km east of Kenora, Ontario and consists of 23 claims totaling 269 units. The Company entered into an option agreement with Endurance Gold Corp. whereby under the Initial Option the Company could earn a 70% interest in the property by making share payments totaling 400,000 shares (completed in 2008) and completing work commitments of $200,000 on the property (completed). The Company exercised a Second Option to earn a further 5% in the property by issuing a further 50,000 common shares (completed in 2008) and spent an additional $250,000 on the property (completed). The Company has now earned a 75% interest and a joint venture has been formed on a 75% (the Company) and 25% (Endurance Gold Corp.) basis.

b. Ogden

During 2008, the Company entered into an agreement with Goldcorp Canada Ltd. ("Goldcorp") to jointly explore Goldcorp's mining claims located in Ogden and Deloro Townships, located six kilometres south of Timmins, Ontario. The property consists of 84 patented and unpatented claims totaling approximately 1,184 hectares (the "Property"). The agreement allows for the Company to earn 50% of Goldcorp's interest in the Property by funding total expenditures on the Property of $3,100,000 over four years as follows: (i) $400,000 in year one, (ii) $700,000 in year two and (iii) $1,000,000 in each of years three and four. The Company was also required to make cash and share payments to Goldcorp as follows: (i) $40,000 cash and $25,000 worth of common shares on signing (completed in 2008), (ii) $35,000 cash and $25,000 worth of common shares on the first anniversary (completed in 2009), (iii) $35,000 cash and $50,000 worth of common shares on the second anniversary (completed in 2010), (iv) $100,000 worth of common shares on the third anniversary (completed in 2011), and (v) $150,000 worth of common shares on the fourth anniversary (completed). Within six months of the Company's vesting its 50% interest in the Property, Goldcorp had the option to buy back a 20% interest from the Company for a cash payment of up to $310,000, expending $4,100,000 on the Property within two years, and completing a feasibility study within three years.

The Company was the operator of the Property during the earn-in period and afterwards, provided it holds a 50% or greater interest in the Property. During the year ended December 31, 2012, the Company received notice that Goldcorp did not intend to pursue its back-in right on the Ogden property and as a result, the Company and Goldcorp are in the process of finalizing a 50/50 joint venture agreement. If either party becomes diluted to a 10% interest, that interest will be converted into a 2% Net Smelter Return Royalty.

c. Yukon

The Yukon property consists of 242 staked claims in four separate claim blocks in the Dawson Range gold district. Three of the claim blocks are located in the Matson Creek area (Squid East and West properties and Fogo property) and the fourth is located west of the Yukon River (Change property). The Company owns a 100% interest in all claim blocks.

Squid East Property

The Squid East property consists of 82 claims and was acquired by staking and is located in the Matson Creek area of Yukon.

During the year ended December 31, 2013, the Company announced that it has entered into an Option/Joint Venture agreement with GTA Resources ("GTA") in which GTA can earn a 51% to 70% interest in the Company's Squid East property in the Matson Creek area of Yukon. The 82 claim property was initially staked by the Company in 2011 and the Company owns a 100% interest. To earn an initial 51% interest, GTA must make cash payments of $60,000 over three years ($20,000 received), issue a total of 2,000,000 GTA shares over three years (200,000 shares received) and incur work expenditures of $2,000,000 over three years ($500,000 firm including a minimum 400 meters of drilling by 1st anniversary - completed). The Company will be the operator during the earn-in period. Once a 51% interest is earned by GTA, either a 51/49 joint venture will be formed, or GTA may elect to earn an additional 19% interest to bring its total property interest to 70%. The terms to increase its interest from 51% to 70% include payments of $210,000 and 400,000 GTA shares within 120 days of the 3rd anniversary date and incurring an additional $1,000,000 in exploration expenditures by the 5th anniversary. GTA would assume operatorship once it had earned a 51% interest.

During the year ended December 31, 2013, the Company recovered $499,743 in exploration costs incurred under the joint venture. These costs were recorded as a reduction to the deferred exploration and evaluation expenditures with the exception of the operator fee totaling $19,399 which was recorded in income during the period.

During the three month period ended March 31, 2014, GTA decided not to proceed with the option and the Company now holds a 100% interest in the property.

d. Jackson's Arm

The Jackson's Arm property consists of 246 staked claim units totaling 6,150 hectares and is located in north-central Newfoundland. The Company owns a 100% interest in the project.

During the year ended December 31, 2013, the Company applied for a grant under the Mineral Incentive Program through the Government of Newfoundland and Labrador for exploration and evaluation work completed on its Jackson's Arm property. The amount of the grant was $90,413 and the funds were received by the Company during the current period. The grant was recorded as a reduction of deferred exploration and evaluation expenditures.

e. Staghorn

During 2008, the Company entered into an agreement with a group of prospectors to earn a 100% interest in a group of 76 claim units spread over 1,216 hectares in the Wood Lake area in west central Newfoundland. Terms of the option agreement include making a series of staged option payments totaling $95,000 and issuing 250,000 shares to the optionors over three years. During 2008, 2009 and 2010, the Company issued 50,000, 70,000 and 50,000 common shares respectively to the optionors. The optionors retain a 2% Net Smelter Royalty, 50% of which can be purchased for $1,000,000. During 2011, the Company reduced the carrying amount of the deferred exploration expenditures on the Staghorn project by $100,000 as a result of the receipt of a non-repayable grant from the Province of Newfoundland. Also during 2011, the Company paid $44,000 and issued 50,000 shares to the optionors pursuant to the option agreement and now holds a 100% interest.

During the year ended December 31, 2012, the Company determined that no further work would be conducted on the property and has written off $nil in deferred exploration and evaluation expenditures during the period ended March 31, 2014 (December 31, 2013 - $15,188). The Company is actively seeking a joint venture partner on the project.

f. Iron Horse (formerly Gabbro Lake)

The Iron Horse project consists of 371 claims located approximately 120 km Northeast of Labrador City, Labrador.

During 2008, the Company entered into a formal joint venture agreement with Golden Dory Resources for the Iron Horse Project (the "Property"). Under the terms of the agreement the Company and Golden Dory Resources formed the joint venture on a 50:50 basis with the Company being the primary operator.

During 2012, the Company announced that it had reached an agreement subject to TSX Venture Exchange approval whereby Golden Dory can increase its ownership interest from 50% to 70%. Under the terms of the agreement, Golden Dory will become the operator and can increase its interest by 10% to 60% by issuing 1.5 million shares of Golden Dory to the Company (received) and by completing a $500,000 exploration program in 2012, which is to include a minimum 1,200 metre diamond drill program. Golden Dory can increase its ownership interest by an additional 10% to 70% by issuing an additional 2.5 million Golden Dory shares to the Company and by providing an NI 43-101 compliant report by the fourth anniversary of the agreement. During the year ended December 31, 2012, Golden Dory successfully met the conditions to earn the initial 10% additional interest and holds a 60% interest in the Project.

During 2013, the Company signed a letter of intent to sell its remaining 30% interest in the Project to Golden Dory subject to entering into a definitive amending agreement and upon receipt of TSX Venture Exchange approval (received). The Company and Golden Dory agreed to amend their existing Option and Joint Venture

Agreement dated May 18, 2012 (the “JVOA”) to provide for Golden Dory to accelerate its interest in the Property to 70% and then for Golden Dory to purchase the remaining 30% residual interest from the Company (the “Residual 30% Interest”). The JVOA will be amended to provide that Golden Dory will accelerate increasing its interest in the Property to 70% by issuing 2,500,000 common shares to the Company (received) without having to comply with a previous term which required Golden Dory to complete a NI 43-101 report resulting in a minimum of 50 million tonnes of product. Upon Golden Dory acquiring the 70% interest in the Property, the royalty interest in the Property will be reduced to a 0.9% NSR. As part of the amended JVOA, Golden Dory will also purchase the Company’s Residual 30% Interest by: a) issuing 15 million common shares to the Company (received); b) paying $1 million to the Company upon completion of a bankable feasibility study on the Property; and c) issuing to the Company an additional 1% NSR on the Property (received). Upon Golden Dory acquiring all of the Company’s interest in the Property, the Company will retain, in the aggregate, a 1.9% NSR in the Property. As a result, the Company owns 19,000,000 shares of Golden Dory, or approximately 15% of its total issued and outstanding, while Golden Dory will have a 100% interest in the Iron Horse project. During 2013, Golden Dory completed a share consolidation on a 1 for 10 basis as well as a name change to Sokoman Iron Corp. (“Sokoman”) which trades under the symbol “SIC” on the TSX Venture Exchange. As a result of the consolidation, the Company holds 1,900,000 shares of Sokoman.

In addition, during the year ended December 31, 2013, the Company announced that it had entered into an agreement with Gold Royalties Corporation ("Gold Royalties") in which Gold Royalties will acquire a 1.0% royalty interest in the Iron Horse Project. The purchase price of $1,000,000 is payable through the issuance of 1,333,333 common shares of Gold Royalties (the "Gold Royalties Shares") (received) at a deemed price of $0.75 per Gold Royalties Share (the "Share Consideration"). The Company still retains a 0.9% royalty from the Iron Horse Project. The Company has agreed to a contractual escrow period whereby the Share Consideration will be subject to escrow with a 25% release every six (6) months from the date of closing of the Transaction. The common shares of Gold Royalties trade on the TSX Venture Exchange under the symbol “GRO”.

g. <u>Other Properties</u>

Included in Other Properties (located in Ontario and Newfoundland) are the Wick’s Lake; Tilt Cove; Sops Arm North; Gryba; Tally Pond; Hearst; Feagan Lake; and Mealy Intrusion properties. During the three month period ended March 31, 2014 the Company incurred $65,811 (December 31, 2013: $52,368) in pre-acquisition exploration and evaluation costs which were included in expenses for the year.

During the year ended December 31, 2013, the Company received TSX Venture Exchange approval to extend the term of 10,484,500 share purchase warrants initially set to expire on February 2, 2013 by 12 months. The warrants were issued as part of a private placement completed by the Company on February 4, 2011. Each warrant is exercisable into one common share of the Company at a price of $0.45 per share. The new expiry date of the warrants is February 2, 2014. All other terms of the warrants will remain unchanged. During the three month period ended March 31, 2014,, the 10,484,500 warrants expired unexercised.

iii. Stock Options

Details of stock option transactions for the three month period ended March 31, 2014 and the year ended December 31, 2013 are as follows:

	# of Options	Wtd. Avg. Ex. Price
Balance, December 31, 2012	7,515,000	$0.16
Granted during the year	2,060,000	$0.10
Cancelled during the year	(145,000)	$0.14
Balance, December 31, 2013 and March 31, 2014	9,430,000	$0.15

The following table summarizes information about the options outstanding at March 31, 2014 and December 31, 2013:

Expiry Dates	Exercise Price	March 31, 2014 # of Options	December 31, 2013 # of Options
August 2014	$0.15	1,280,000	1,280,000
February 2015	$0.16	1,260,000	1,260,000

March 2015	$0.10	100,000	100,000
August 2018	$0.10	1,960,000	1,960,000
		9,430,000	9,430,000

The Company applies the fair value method of accounting for share-based payments using an option pricing model.

Stock options granted to directors, officers and employees vested during the period ended March 31, 2014 are as follows:

Grant Date	# of Options	Exercise Price	Expiry Date
March 1, 2013	4,110	$0.10	March 1, 2015
August 7, 2013	295,294	$0.10	August 7, 2018
	299,404		

The Company has calculated $10,797 as share-based payments expense and under capital stock as reserves for the 299,404 options vesting to directors, officers and employees during the year:

- For the 100,000 options granted on March 1, 2013, the fair value of each vested option is $0.026 and was estimated on the grant date with the following assumptions: dividend yield of 0%, expected volatility of 147%, a risk-free interest rate of 1.01% and an expected life of approximately 2 years.

- For the 1,960,000 options granted on August 7, 2013, the fair value of each vested option is $0.036 and was estimated on the grant date with the following assumptions: dividend yield of 0%, expected volatility of 166%, a risk-free interest rate of 1.75% and an expected life of approximately 5 years.

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate.

iv. Share Issuance – Mineral Property Option Agreements

The Company has issued no shares in acquiring options on mineral properties at March 31, 2014 and December 31, 2013.

8. RELATED PARTY TRANSACTIONS

The Company paid or accrued the following amounts to related parties during the period ended March 31, 2014 and March 31, 2013:

Payee	Description of Relationship	Nature of Transaction	Mar. 31, 2014 Amount ($)	Mar. 31, 2013 Amount ($)

9. STAKING SECURITY DEPOSITS

Staking security deposits of $28,180 (December 31, 2012 – $22,281) represents security amounts paid to the Government of Newfoundland and Labrador in connection with mineral property claims located in the Province of Newfoundland. These staking security deposits are refundable to the company upon submission by the company of a report covering the first year work requirements which meets the requirements of the Government of Newfoundland and Labrador.

10. SUPPLEMENTAL CASH FLOW INFORMATION

	March 31, 2014 $	March 31, 2013 $
Shares received for option on mineral properties	-	28,000

11. LOSS PER SHARE

Basic loss per common share has been calculated using the weighted average number of common shares outstanding in each respective period. As the issue of shares upon the exercise of stock options and warrants would be anti-dilutive, diluted loss per common share is equivalent to basic loss per common share.

12. COMMITMENTS

The Company has entered into a lease agreement for its office premises in Thunder Bay, Ontario expiring September 15, 2014 for $1,219 per month.

During the year ended December 31, 2013, the Company hired King James Capital Corp. to provide investor relations and financial public relations services in exchange for a fee of $2,000 per month for a term of twelve months. In addition, the Company granted to King James Capital Corp. 100,000 stock options at an exercise price of $0.10 for a term of two years with one-quarter of the options granted vesting every three months following the date of grant. The monthly fee was reduced to $1,000 per month during the year.
